# STUDENT COUNCIL

The Student Council for 1953-1954 represents a definite re-organization. The chief aims and purposes involve the general improvement of both the student and the school. For the students the aims are to provide wholesome and satisfactory experiences; for the school, they must contribute to the effectiveness of its program. The Student Council is a leadership organization composed of elected representatives from all home rooms, whose chief purpose is to act as a connecting link between the students and the faculty.
